Art Unit: 1786

The terminal disclaimer filed on May 18, 2010, disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patent granted on Application No. 11/797,532, has been reviewed and is accepted. The terminal disclaimer has been recorded.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the drawings and in the specification:

Drawing sheets 46, 47 and 48 of the drawings filed August 25, 2006 have been removed from the drawings and inserted into the specification following page 130. On sheet 46, the heading "EXPLANATION OF REFERENCE" has been changed to --EXPLANATION OF REFERENCE NUMBERS IN THE DRAWINGS--.

Drawing sheets 46, 47 and 48 provide an explanation of the reference numbers in the drawings, but do not contain drawings. The content of these sheets is part of the specification.

In the Office action mailed February 18, 2010, the examiner noted that further consideration of claims 50-67, 71 and 72 would be required under 35 U.S.C. 135 upon resolution of all rejections. That issue has been rendered moot. (A voice mail message was left for applicant's representative, Eric Robinson, on March 18, 2010 notifying him that the issue of further consideration under 35 U.S.C. 135 was moot.)

Regarding the Information Disclosure Statement received December 03, 2008, applicant indicates in the communication filed May 18, 2010 (and in the communication filed November 09, 2009) that based on a previous comment by the examiner, it is applicant's understanding that the examiner has considered the full English translations of the International Search Report and Written Opinion, both for PCT/JP2004/018079, both dated April 5, 2005. Applicant indicates that if applicant's understanding is incorrect, clarification is requested (emphasis added). Applicant's understanding is correct, so no clarification should be necessary. However, since applicant has made the same statements and request in two separate communications, and an Office action was mailed between those two communications which did not state that applicant was incorrect (again, no clarification was deemed necessary since applicant's understanding is correct) it appears that applicant needs written confirmation regardless of whether applicant's understanding is correct. Applicant's understanding is correct; the full English translations of the two referenced documents have been considered by the examiner.
